Obstetric Consultant & Consultant under Puerperal Fever
and Pyrexia Regulations.

H. J. MALKIN. M.D. (Lond) F.R.C.S. (Edin) F.R.C.O.G.

Health Visitor:

Miss M. E. Brown, S.R.N. C.M.B.

Dental Surgeon

G. R. SMITH, L.D.S.

Sanitary Inspector:

L. F. LIGHTFOOT, C.R.S.I.,

Clerks:

MISS E. WOLSTENHOLME, MR. T. RENSHAW,

Public Health Department,

Manor House,

Mansfield Woodhouse,

**TO THE CHAIRMAN AND MEMBERS OF THE
MANSFIELD WOODHOUSE URBAN DISTRICT COUNCIL.**

Mr. Chairman, Gentlemen,

I have the honour to present my annual report for the year 1948. The year saw a great social change with the coming into force of the National Health Service Act, 1946. In so far as it affects your authority this measure has involved the transfer of Welfare Services to County Council administration.

The vital statistics must be viewed with very qualified satisfaction. The birth rate was higher and the death rate lower than the corresponding rates for the rest of the country but infantile mortality was high and, considering the number of deaths in this group due to respiratory illness, I feel that this must be related to the deplorable housing conditions in which so many of the people have to live.

The work of the department has been rendered difficult by inexperience and lack of continuity resulting from frequent changes of clerical staff.

I should like to offer my sincere thanks to the Chairman and Members of the Health Committee, to the Sanitary Inspector and the staff of the department and to the other officials for their co-operation and assistance during my initial year as your Medical Officer of Health.

I have the honour to be.

Your obedient servant,

B. N. EEDY.

SECTION A.

STATISTICS AND SOCIAL CONDITIONS.

| | | | | 1948 | 1947 |
|-------------------------------------|-----|-----|-----|--------|--------|
| Area (in acres) | ... | ... | ... | 4834 | 4834 |
| Population | ... | ... | ... | 17180 | 16963 |
| Number of inhabited Houses | ... | ... | ... | 4534 | 4414 |
| Rateable Value (31st March) | ... | ... | ... | £67030 | £65893 |
| Gross Sum represented by a 1d. rate | | | | £257 | £255 |

VITAL STATISTICS.

| | | 1948. | | | 1947. | | |

Recent legislation transferred this work to the Children's Officer of the County Council.

SCABIES AND PEDICULOSIS ORDER, 1941.

This Order ceased to be operative after 31st December, 1947

32 cases of pediculosis were treated at the Centre as against 45 in 1947.

There were no cases of Scabies treated.

SECTION B.

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

MATERNITY & CHILD WELFARE.

The National Health Service Act, 1946 came into force on 5th July, 1948. Part III of the Act involved the transfer of Welfare Services with personnel engaged in those Services to County Council administration. Information given in respect of these services relates to the first six months of the year.

VACCINATION & IMMUNISATION.

The National Health Service Act, 1946, imposed the duty on the local health authority—in this area the County Council—of making arrangements for vaccination against smallpox and immunisation against diphtheria. Your Council have agreed with the proposal of the Notts. County Council to utilise the services of your Medical Officer of Health in carrying out these arrangements.

Figures shown in connection with diphtheria immunisation relate to the 12 months period.

LABORATORY SERVICE.

The Public Health Laboratory Service established a laboratory at Amberley Street, Nottingham under the direction of Dr. G. B. Ludlam, during the year. The services of this laboratory have been freely utilised and have been of the greatest value.

HOSPITALS.

Infectious Diseases Hospitals have been taken over by the Regional Hospital Board as from 5th July, 1948. Practitioners have been informed by the Board that the Medical Officer of

Health will advise with regard to the admission to hospital of uncomplicated cases of scarlet fever, whooping cough, measles etc. Statutory provisions with regard to notification of infectious diseases remain unchanged.

NATIONAL VITAMINS SCHEME.

In co-operation with the Ministry of Food, vitamin products are supplied at the Clinics.

NATIONAL ASSISTANCE ACT 1946. SECTION 47.

No action was taken.

SECTION C.

The Sanitary State of the Area. .

Water Supply and Sewage system are the same as in previous years.

WATER SUPPLY.

The Council undertake the distribution of water within the Urban District obtaining it in bulk from the Borough of Mansfield. The supply is constant, sufficient and of excellent quality the sources being deep wells at Rainworth and Clipstone tapping the "Bunter Sand Stone."

The following table shows the results of chemical analysis and bacteriological examination of mains water during 1948.

CHEMICAL ANALYSIS

This sample contains ¹¹ per 100,000 parts

The water is not liable to have plumbo solvent action.

The average total consumption of water per head per day was as follows:—

| | | 1948 | 1947 |
|---------------------------|--------|-------|-------|
| Domestic per head per day | ... | 21.25 | 20.70 |
| Trade per head per day | | 5.25 | 5.37 |
| Total all purposes | | 26.5 | 26.67 |

Particulars of the number of dwelling houses and the number of the population supplied from public water mains.

| | | Houses | | Population | |
|----------------------------|-----|--------|----------|------------|----------|
| | | No. | per cent | No. | per cent |
| (a) Direct to houses | ... | 4525 | 99.8 | 17457 | 99.75 |
| (b) By means of standpipes | | 4 | .09 | 13 | .074 |

There are only 5 dwellings .11 per cent in the district without public supply and of these 4 have spring water (3 supplied by hydraulic ram and 1 supplied by gravitation); the other dwelling has the public supply conveyed from other premises.

Samples of water from two springs were obtained during the year and both waters were found to be of satisfactory bacterial and chemical quality.

SECTION F.

PREVALENCE OF AND CONTROL OVER INFECTIOUS DISEASES.

13 cases of Infectious Disease were admitted into Mansfield Borough Isolation Hospital during the year.

The Council paid the following precepts to the South Notts. Joint Hospital Board during the year under review:—

1948 — £163. 11s. 0

1947 — £163 10s 2d

SCARLET FEVER.

During the year 17 cases occurred compared with 17 cases in 1947, 9 of these cases were removed to hospital.

DIPHTHERIA.

There was one case of diphtheria during the year compared with no cases in 1947.

MEASLES.

168 cases were notified during the year compared with 221 cases notified during the year 1947.

WHOOPING COUGH.

83 cases were notified during the year compared with 5 cases notified during the year 1947.

OPHTHALMIA NEONATORUM.

One case was notified during the year.

FOOD POISONING.

No cases were notified during the year.

TUBERCULOSIS.

SANITARY INSPECTOR'S REPORT.

To the Chairman and Members of the Mansfield Woodhouse
Urban District Council.

Mr. Chairman and Gentlemen,

It is my privilege as your Sanitary Inspector to submit, in conjunction with the report of the Medical Officer of Health, details of the work carried out under the several Acts, Orders, Regulations and Byelaws in force in the District.

The housing problem in all its aspects has had fullest attention, and the investigation of applications in connection with your "Points Scheme" for the selection of tenants and subsequent interviewing of unsuccessful applicants has again taken considerable time and restricted work in other directions. Full employment in the building trades with a consequent shortage of labour for repair work, together with the continued shortages of certain materials have caused considerable delay in the execution of repairs and more Statutory action has been necessary.

I should like to express my appreciation of your interest and full support in my work and also to thank the Medical Officer of Health, Staff of the Health Department and Officials of the Council for their help and ready co-operation.

I have the honour to be

your obedient Servant,

LESLIE F. LIGHTFOOT,

Sanitary Inspector.

RODENT CONTROL.

RATS AND MICE (DESTRUCTION) ACT, 1919 AND THE INFESTATION ORDER, 1943.

This branch of the department's work has continued to develop and the survey of surface properties commenced last year was completed. Where infestations were discovered the necessary treatments by trapping, gassing or poisoning were carried out. Infestations of mice were found to be greater than rat infestations. this caused extra work as mice in my opinion are, because of their habits, much more difficult to destroy than rats.

Major infestations at the sewage works, salvage shed, refuse tips and at the playing fields, where tipping of refuse took place for levelling purposes, were all dealt with and periodic treatments were carried out.

Two sewer treatments were carried out during the year, one in April and one in November and the result shows the infestation to be very slight.

No attempt has been made to estimate the numbers killed, but the following table shows the work done.

SURFACE PROPERTY.

| | Private Houses. | Business Premises. | Council Premises |
|--------------------------|--------------------|-----------------------|---------------------|
| No. Surveyed ... | 1411 | 7 | 5 |
| No. Rat Infested ... | 25 | 3 | 4 |
| No. Mice Infested | 66 | — | 1 |
| No. treated by Council | 63 | 3 | 5 |
| No. treated by occupier | 28 | — | — |
| No. secondary treatments | 13 | — | 12 |

SEWER MANHOLES.

| | Test baited | Infested | Poison baited |
|--------------|-------------|----------|---------------|
| April ... | 30 | 12 | 12 |
| November ... | 56 | nil | nil |

SMOKE ABATEMENT.

Complaint was received concerning the excessive emission of smoke from one smoke stack during the year, the cause was found to be faulty methods of boiler firing and the nuisance was abated after correct methods were instituted.

SHOPS ACT, 1934.

During the year 12 inspections were made of shops respecting the provisions of Section 10 of this Act, One notice was served requesting the repair of sanitary accommodation the notice was complied with.

**PUBLIC HEALTH ACT 1936 : CAMPING SITES,
TEMPORARY DWELLINGS, ETC.**

There are no camping sites in the District.

During the year 2 sites were used for living vans without either the sites or the dwellings being licensed. Immediate action was

taken in accordance with the provisions of the Act and in one case the van was removed before the expiration of the specified period, in the other case information was laid under Section 269 of the Act and the defendant was fined 5/- and an Order was made for the removal of the van within six weeks, this van was moved in accordance with the Order.

OFFENSIVE TRADES.

Number on Register at end of 1948:—

| | | | | | | |
|---------------|-----|-----|-----|-----|-----|---|
| Tripe Boiling | ... | ... | ... | ... | ... | 3 |
| Gut Scraping | ... | ... | ... | ... | ... | 1 |
| Fat Melting | ... | ... | ... | ... | ... | 1 |
| Blood Drying | ... | ... | ... | ... | ... | 1 |

The businesses have again been carried on satisfactorily.

SLAUGHTER HOUSES.

The number of licensed slaughterhouses in the district has been reduced to 1 which is used for the slaughter of pigs for cottagers and private persons.

The licences of the 2 remaining slaughterhouses have not been renewed since 1940.

SLAUGHTER OF ANIMALS ACT, 1933.

Two new licences were granted to slaughtermen during the year and 17 persons are now licenced by the Council under this Act.

The Ministry of Food only issue licences for the slaughter of pigs for home consumption where a licenced slaughterman is to be employed, and in cases of emergency a Cash Captive Bolt humane slaughtering pistol can be borrowed from the Health Department.

ERADICATION OF VERMIN AND INSECT PESTS.

Eradication is effected by the use of liquid and powder insecticides containing D.D.T. and gammexane smoke generators together with steam disinfestation of bedding and clothing in appropriate cases. This work is carried out by a trained operator and except in the case of ant infestations treatment has been very successful and re-infestation negligible.

The following table shows the infestations dealt with:—

| Vermin or Pest | | Council Houses. | Other Houses. | Disinfested by Council | Disinfested by Occupier |
|-------------------|--------|--------------------|------------------|---------------------------|----------------------------|
| Bugs | | 2 | 7 | 6 | 3 |
| Cockroaches | ... | 4 | 7 | 4 | 7 |
| Furniture Beetle | | 1 | 1 | 1 | 1 |
| Ants | | 2 | 3 | 3 | 2 |
| Total | ... | | 27 | 14 | 13 |

FACTORIES WITH AND WITHOUT MECHANICAL POWER AND OTHER PREMISES.

| Other offences | ... | — | — | — |
| | | — | — | — |
| | | 3 | 2 | — |
| | | — | — | — |

OUTWORKERS.

7 outworkers premises have been inspected and found to be clean and satisfactory.

HOUSING STATISTICS OF THE YEAR 1948.

SECTION D. — HOUSING.**1.—INSPECTIONS OF DWELLING-HOUSES DURING THE YEAR.**

| | |
|---|-----|
| (1) a. Total number of dwelling-houses inspected for housing defects (under the Public Health or Housing Acts) | 376 |
| (b) Number of inspections made for the purpose | 883 |
| (2) a. Number of dwelling-houses (included under sub-head (1)) above which were inspected and recorded under the Housing Consolidated Regulations, 1925 and 1932 | 20 |
| (b) Number of inspections made for the purpose | 34 |
| (3) Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation | 2 |
| (4) Number of dwelling-houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation | 269 |

2.—REMEDY OF DEFECTS DURING THE YEAR WITHOUT SERVICE OF FORMAL NOTICES.

| | |
|--|-----|
| Number of dwelling-houses rendered fit in consequence of informal action by local authority or their officers | 273 |
|--|-----|

3.—ACTION UNDER STATUTORY POWERS DURING THE YEAR.

(a). Proceedings under Section 9, 10 and 16 of the Housing Act, 1936:—

(1) Number of dwelling-houses in respect of which notices were served requiring repairs nil.

(2) Number of dwelling-houses which were rendered fit after service of formal notices:—

(a) By owners nil.

(b) By local authority in default of owners —

(b) Proceedings under Public Health Acts:—

(1) Number of dwelling-houses in respect of which notices were served requiring defects to be remedied 66

(2) Number of dwelling-houses in which defects were remedied after service of formal notices:

By owners 59

(b) By local authority in default of owners 7

(c) Proceedings under Section 11 and 13 of the Housing Act, 1936:—

(1) Number of dwelling-houses in respect of which Demolition Orders were made nil.

(2) Number of dwelling-houses demolished in pursuance of Demolition Orders nil.

(d) Proceedings under Section 12 of the Housing Act, 1936:

(1) Number of separate tenements or under ground rooms in respect of which Closing Orders were made nil.

| | | | | |
|--|-----|-----|-----|------|
| (2) Number of separate tenements or underground rooms in respect of which Closing Orders were determined the tenement or room having been rendered fit | ... | ... | ... | nil. |
|--|-----|-----|-----|------|

4. HOUSING ACT, 1936. PART IV. OVERCROWDING.

| | | | | | |
|--|-----|-----|-----|-----|------|
| (a) (1) Number of dwellings overcrowded at the end of the year | .. | ... | ... | ... | 19 |
| (2) Number of families dwelling therein | ... | | | | 26 |
| (3) Number of persons dwelling therein | ... | | | | 136 |
| (b) Number of new cases of overcrowding reported during the year | ... | ... | ... | | 5 |
| (c) (1) Number of cases of overcrowding relieved during the year | ... | | ... | | 4 |
| (2) Number of persons concerned in such cases | | | | | 18 |
| (d) Particulars of any cases in which dwelling-houses have again become overcrowded after the local authority have taken steps for the abatement of overcrowding | ... | ... | ... | | nil. |
| (e) Any other particulars with respect of overcrowding conditions upon which the medical Officer of Health may consider it desirable to report | ... | ... | ... | ... | nil. |

The acute housing shortage has again made it impossible to re-house any of the single families living in overcrowded circumstances. Some of these families will require four-bedroom type houses and it is expected that some Council Houses of this type will be made available for these families, as the tenants are willing to accept smaller houses.

SECTION E. — INSPECTION AND SUPERVISION OF FOOD.

MILK SUPPLY.

REGISTRATION OF PERSONS AND PREMISES.

| | | | | |
|---|-----|-----|-----|----|
| Milk producers on the register | ... | ... | ... | 8 |
| No. of premises registered as Dairies | ... | ... | ... | 12 |
| No. of registered retail purveyors, resident within the district (including producer/retailers | | | | 40 |
| No. of producer/retailers resident within the district | | | | 3 |
| No. of registered retail purveyors, resident outside the district | ... | ... | ... | 6 |
| Wholesale milk traders on register | ... | ... | ... | 8 |
| No. of inspections of dairies, cowsheds and milkshops | | | | 55 |

During the year it was necessary to call the owners and occupiers attention to the following defects or contraventions all of which were remedied.

| | | | | |
|--------------------------------|-----|-----|-----|---|
| Dirty condition of milk stools | ... | ... | ... | 1 |
| Limewashing of dairy overdue | ... | ... | ... | 1 |

DESIGNATED MILKS.

The following licences have been granted for the sale of Designated Milks, viz.:—

| Supplementary Licences | No. Granted. |
|------------------------------------|--------------|
| Tuberculin Tested Pasteurised Milk | ... |
| Pasteurised Milk | ... |
| Dealers' Licences. | |
| Tuberculin Tested Pasteurised Milk | ... |
| Pasteurised Milk | ... |

In addition there is one "Accredited" milk producer and two "Tuberculin Tested" milk producers licenced by the Notts. County Council in the District.

BACTERIOLOGICAL TESTS OF MILK.

During the year 57 samples of milk produced or retailed in the district were submitted for examination.

MILK (SPECIAL DESIGNATIONS) REGULATIONS, 1936 to 1946.

| Designation. | No. of Samples. | Passed. | Failed. |
|-------------------------------|-----------------|---------|---------|
| Tuberculin Tested Pasteurised | 13 | 12 | 1 |
| Pasteurised | 11 | 10 | 1 |
| xTuberculin Tested | 21 | 20 | 1 |
| xAccredited | 7 | 7 | — |
| | — | — | — |
| | 52 | 49 | 3 |
| | — | — | — |

x Samples taken by Notts. County Council.

The pasteurised milk and the tuberculin tested pasteurised milk which failed to comply were processed at plants outside the district, the results were immediately transmitted to the Sanitary Inspectors concerned and also to the Area Milk Officer of the Ministry of Food.

HEAT-TREATED MILK (PRESCRIBED TESTS) ORDER 194~~4~~.

| | No. of Samples. | Passed. | Failed |
|------------------------|-----------------|---------|--------|
| Sterilised Milk | 3 | 3 | — |

RAW MILK.

| | | | |
|-----------------------------------|---|---|---|
| Produced at farms in the district | 2 | 2 | — |
|-----------------------------------|---|---|---|

No bacteriological standard is laid down for ordinary raw milk, but the test for raw designated milk has been applied.

INSPECTION OF MEAT AND OTHER FOODS.

CARCASSES INSPECTED & CONDEMNED.

| | | | Cattle ex Cows | Cows | Calves | Sheep | Pigs | Goats |
|-----------------|-----|-----|-------------------|------|--------|-------|------|-------|
| No. Slaughtered | ... | ... | — | — | — | — | 343 | — |
| No. Inspected | ... | ... | — | — | — | — | 338 | — |

ALL DISEASES EXCEPT T.B.

| | | | | | | | | |

| Fish Friers | ... | ... | ... | 13 |

During the year applications in respect of one ice-cream manufacturer and four ice-cream retailers were approved. The number of samples taken was 31, an increase of 19 over the previous year, the Methylene Blue Test advised by the Public Health Laboratory Service was applied to all samples and the following results were obtained.

| Source of Sample | No. obtained | Provisional Grade | | | |
|--------------------------------------|--------------|-------------------|----|-----|----|
| | | I | II | III | IV |
| Manufactured at premises, | | | | | |
| registered by the Council | 22 | 9 | 7 | 5 | 1 |
| Manufactured at premises outside and | | | | | |
| retailed within the District | 9 | 4 | 2 | 1 | 2 |
| Total | 31 | 13 | 9 | 6 | 3 |

The three Grade IV samples which were from two sources were subject to special investigation and it was found that faulty methods of sterilisation of equipment had been adopted, certain recommendations as to improved methods were made and follow-up samples afterwards obtained gave satisfactory results.

ADULTERATION OF FOOD AND DRUGS.

The following information has been kindly supplied by Mr. T. L. E Gregory, Chief Inspector, Notts County Council

PARTICULARS OF SAMPLES OBTAINED IN THE URBAN DISTRICT DURING THE YEAR ENDING 31st DECEMBER, 1948 AND SUBMITTED TO THE PUBLIC ANALYST.

MILK.

In addition to the above 64 informal samples of milk were obtained and examined by the Sampling Officers, 62 being genuine and 2 adulterated or sub-standard, these two samples were 3 per cent. deficient in milk fat and the vendors were cautioned.
